**JIM ZUCKERMAN** left his medical studies in 1970 to pursue his love of photography and turn it into a career. Jim specializes in wildlife, nature, and travel photography, macro work, photomicroscopy and digital effects. His diversity in technique and style is unique in the professional arena. Jim was a contributing editor to Photographic Magazine for 35 years, and he is the author of 15 books on photography and he has self-published 9 ebooks.

His images, articles, and photo features have been published in scores of books and magazines including Time-Life books, publications of the National Geographic Society, the Economist, Life Magazine, Omni Magazine. His work has also been featured on scores of jigsaw puzzles, national ads, calendars, greeting card lines, and more.

Jim leads photo tours all over the world to many exotic locations including Indonesia, Patagonia, Iceland, China, Nepal, Kenya, Namibia, the Pantanal, and Ecuador.

## WHAT WILL BE COVERED

Jim looks at many of the challenges photographers face while shooting as well as in post-processing and explains/demonstrates how to solve these problems. These include fixing blown highlights, replacing the sky, taking sharp pictures with low ISO settings when tripod use is prohibited, how to make realistic HDR images, eliminating noise when shooting stars with a stacking technique, flawlessly compositing images, the best way to focus track with flying birds, how to make perfect backgrounds with macro photography, and more.
