PARISH KOHANIM

Parish, a very successful commercial photographer for 30 years opened his own Fine Art Gallery in 2004. His work is represented in art galleries in the US and France.

A Canon, “Explorer of Light” since 1994, he gives presentations and workshops in the US and abroad. An X-Rite Coloratti Pro and winner of the “One Show,” a Clio, other numerous awards and he was named “One of the World’s Top 100 Photographers” for three consecutive years by GRAPHIS.

Parish continues to renew his passion and love for photography by expressing the beauty around us in his luminous imagery.

PRESENTATION DESCRIPTION

Parish will take you on a journey, exploring his diverse and striking body of work, composed of his award-winning commercial assignments, stunning painterly-style portraits, landscapes and his fine art imagery. For Parish, the heart and soul of his photography is that of an artist and what inspires and motivates his creative process is the focus of what he will share with you during his presentation.

Parish will discuss the importance of proper composition, unconventional lighting techniques for creating dynamic visual impact and how to get the most naturally posed portraits.

Throughout his presentation, he will point out and share some simple and fresh techniques on how to make your pictures stand out from the crowd. He will take you behind the scenes of some of his major assignments. He will discuss his approach and methodology for making any assignment or shot a success.

Embracing the trends of our technological advancements and change, Parish will show you his experimental videos that resulted in new assignments. He

also shares his philosophy and his passion about the ART of photography. His presentations are educational as well as inspirational. He will focus on how to find the beauty that surrounds us in our own environment, and how to have the vision to expand one’s personal horizons.

Parish will give you unparalleled access, revealing his production methods for his most unique and up-coming book “Luminosa” with Cirque du Soleil’s extraordinary performers, which took five years to complete. He shoots these one-of-a kind shots at 1/5000 sec., hence the “frozen moments” of their spectacular performances. Recognized internationally for his superb imagery, imaginative lighting and a truly artistic approach that focuses on the beauty that inspires him.

So whether you shoot portraits, weddings or landscapes, this is a Must-See presentation that will help to enhance your creativity, vision and passion.

This event is being offered as part of a membership campaign for [DPI-SIG](#).
